

ElixirConf® Afr

Sponsorship Prospectus

Second virtual Elixir
Conference hosted in Africa

11th -12th August 2022

Elixir Community | Africa

Through our journey in Elixir and while organizing the ElixirConf Africa, we've come to a realization that the African Elixir Community in Africa is quite large despite Elixir being a language that is new to many parts of this continent. We have amazing developers doing great stuff with Elixir & its counterpart frameworks, which have with time proven to be a power tool.

Bringing this conference home is focused on shining light to our elixir developers locally. We believe in creating a platform for BEAM developers all over Africa and beyond, limitlessly, to collaborate, build networks and showcase the amazing solutions they've built with Elixir/Erlang irregardless of seniority levels

The conference aims at showcasing how BEAM languages, specifically Elixir, have played a big role in molding solutions around real life problems that the world faces. We are hoping that through this conference we advance the Elixir programming language in Africa, the communities surrounding it, and the companies supporting it.

Elixir Conf | Africa summary

The conference will kick off and end with Keynote talks from amazing speakers who've done great things with the Elixir Programming language.

We are currently in the process of accepting talk proposals as well as reviewing proposals from Elixir enthusiasts that aspire to speak at the conference. This runs concurrently with the attendees RSVP .

First Day of the conference will have a line up of speakers composed of the starting keynote, lightning talks, technical & non-technical talks, Q&A sessions and finally the closing keynote.

On the second day, we plan to do elixir workshops that will enable our attendees learn new concepts and ask questions that may aid them in being better elixir developers

There are quite a number of logistics tied to our event, most of which are dependent on finances. This is why we're seeking sponsorship in order to give Africa the second biggest Elixir Conference ever hosted locally!

We immensely appreciate you taking the time to view our prospectus and would very much be obliged if you'd sponsor towards this course. Elixir Conf Africa will continue to be an annual event and we look forward to having you in more!

If you wish to be a sponsor within the pre mentioned packages or on your own terms, we'll be happy to hear from you. Kindly send an email to jambo@elixirconf.africa

We value your feedback :)

Cheers!
